SYSTEM COMPONENTS

This guide outlines the configuration instructions for the APP to match your Jayco RV model.

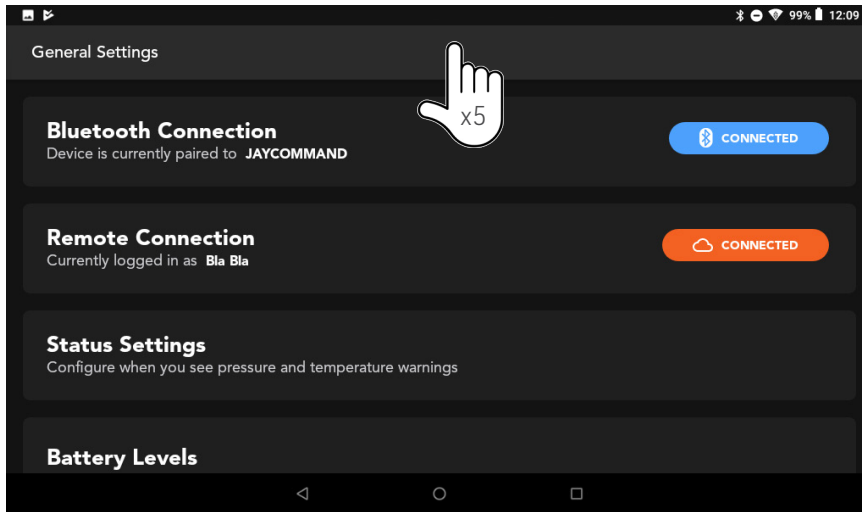

1. Identify Model on RV

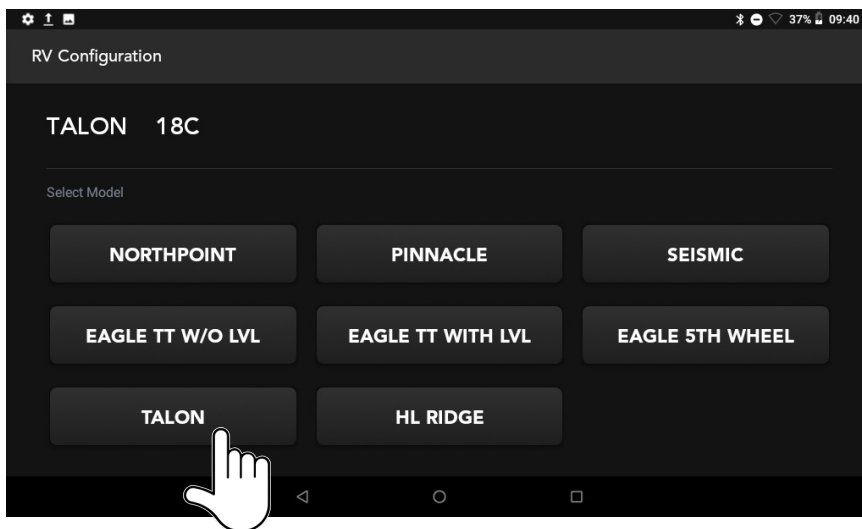

2. Go to the settings page by pressing the Settings icon ⚙️

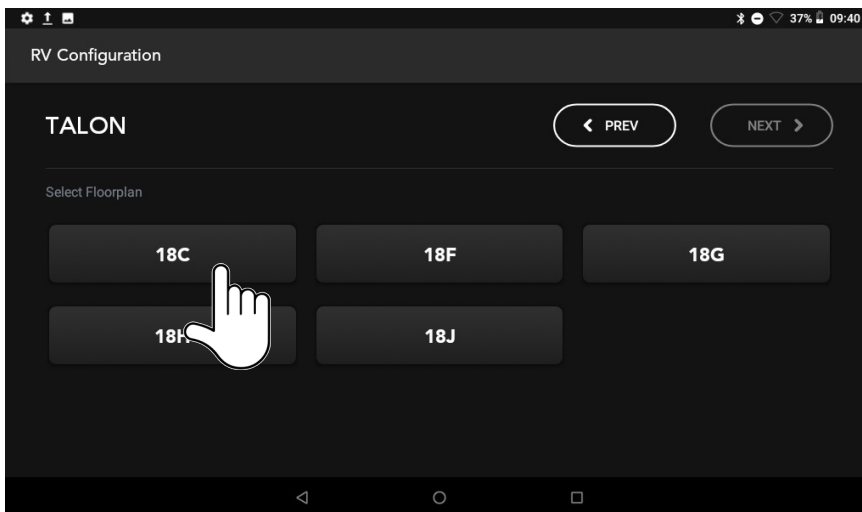

3. Press the General Settings bar five times to enter the configuration page.

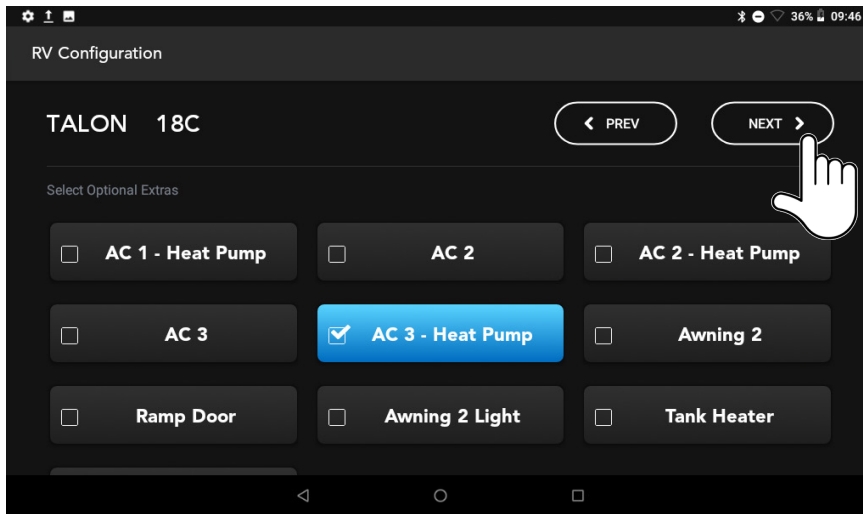

4. Select the Model of the RV from the menu provided.

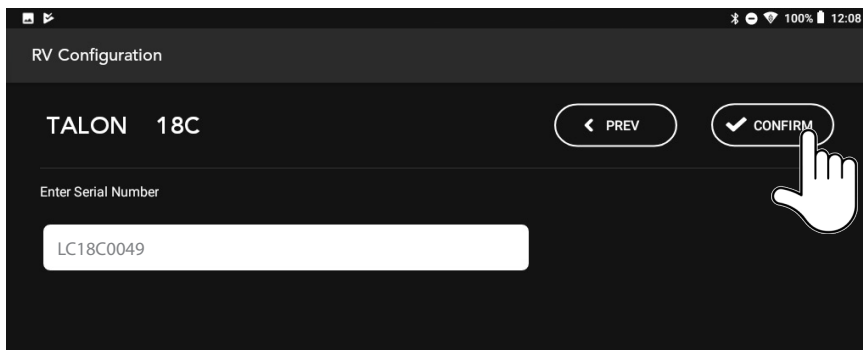

5. Select the floor plan.

6. Select Optional Features, press "Next".

7. Enter the serial number of your Jayco RV e.g. L18C0049, press "Confirm".

The APP will restart and the new configuration will be displayed.
