

PROSMART

POWERING YOUR ADVENTURES

The ProSmart system monitors water tanks, gas levels, tyre pressure, temperatures and battery charge, all from the ProSmart app.

ProSmart comes with SmartLink, a powered node that's easily installed and paired with your device, allowing you to view and monitor up to 40 Bluetooth sensors, providing a wealth of information at your fingertips.

Connect the system to your 12V battery with the included battery cable. ProSmart can be used anywhere with a 12V power source, your RV, truck, boat or 4WD.
