

CANOPYDCBOARD25

25A BATTERY CHARGING STATION

The CanopyDCBoard25 is a versatile 12V battery charging station. It features multiple Anderson connections, a 500A shunt and battery monitor, an 80A battery isolator, and a ProBoost25 DC-DC charger with MPPT solar charging.

The panel includes various outlets such as 12V accessory sockets, dual USB-A/USB-C sockets, and an Engel fridge socket, all controlled by six fused rocker switches.

Additionally, it boasts a 3-function LED light for enhanced visibility.
