# Odyssey Install Guide

12V power management system Odyssey consists of a battery and power management system BatteryPlus35, an Odyssey-Link, connected to the BatteryPlus35 via a data cable, a wall mounted touch screen monitor and a free Odyssey app.

1. DESCRIPTION OF PARTS

1. Power button
2. Micro-USB Input
3. Return button
4. Main Screen button
5. Recent Applications button

1. Pairing Button
2. LED Status Indicator
3. Serial Number

2. LOCATION

The Odyssey must not be installed where it can be splashed by water or other liquids.

Install the OdysseyLink in a location close to the Odyssey where you can maintain a good Bluetooth connection.

3. MOUNTING

1. Drill a hole into the wall to feed through the CAN cable.
2. Using four 4mm screws, fix the Odyssey back plate onto the wall, making sure to position the opening in the back plate over the CAN cable through hole.
3. Feed the CAN cable through the wall and connect to the CAN port on the back of the Odyssey.
4. Connect the other end of the CAN cable to the OdysseyLink CAN port.
5. Clip the Odyssey onto the back plate.

4. PAIRING TO THE OdysseyLink

1. Ensure the OdysseyLink is connected to the BatteryPlus35-II.
2. Ensure the BatteryPlus35-II is on.
3. Press the pairing button on the OdysseyLink. You will have 30 seconds to pair the Odyssey.
4. On the Odyssey press the "Scan" button.
5. Select the OdysseyLink with the number that matches the last six digits of the serial number of the OdysseyLink you are pairing to.

5. CONFIGURING A NEW BATTERY

1. On the Home Screen, press the Settings button.
2. In the Battery Capacity field, enter the battery capacity in amp hours.

5. CONFIGURING BATTERY CHEMISTRY

1. On the Home Screen, press the Settings button.
2. In the Battery Profile field, select the battery chemistry.
