

ODYSSEY OVERVIEW

BMPRO's Odyssey is an in-built app-driven battery monitor and control console designed to operate with BMPRO's BatteryPlus35-II series of power management systems via the OdysseyLink104.

It provides information about the caravan's battery and power consumption, and allows you to monitor clean and dirty water tanks and caravan temperature, as well as control caravan features such as lights, slide-outs and water pumps from either the Odyssey tablet or wall switches.

Odyssey is SmartConnect ready, allowing you to pair SmartConnect sensors so you can remotely control various aspects of your caravan.

KEY FEATURES

- ▣ Monitor battery status, power consumption, available charge sources, clean and dirty water tanks and caravan temperature
- ▣ Control lights, slide-outs and water pumps
- ▣ Compatible with SmartConnect
- ▣ Sleek, in-built design
- ▣ App-driven for ease of use
- ▣ Support for BMPRO's Dipper tank water level indicator
- ▣ BMPRO signature durability & ease of use
- ▣ 2 year warranty

ODYSSEY SPECIFICATIONS

Input Voltage	5V DC
Input Current	3A
Charger Input Voltage	12V
Communication/Charger Cable	USB to Micro-USB
Dimensions	224mm x 144mm x 17.7mm
Weight	0.5 kg

ODYSSEYLINK104 SPECIFICATIONS

Input Voltage	8-15V DC
Battery Drain	< 21mA
Ambient Temperature	0-50C
Cable Length	0.5m

WALL SWITCH SPECIFICATIONS

Input Voltage	2.2-3.0V DC
Battery Type	CR2032
